Book Reviews

Ballistic materials and penetration mechanics 14

Composite materials; mechanics, mechanical properties and fabrication 100
 Composite structures 339
 Fatigue of fibrous composites 101
 Fibre composite hybrid materials 102
 An introduction to composite materials 338
 Introduction to composite materials 10
 Joining of composite materials 338
 Mechanics of cellular plastics 362
 Membranes in ground engineering 102
 Processing and uses of carbon fibre reinforced plastics 100
 Resins for aerospace 10
 Technician's handbook of plastics 15
 Technology of carbon and graphite fiber composites 362
 Test methods and design allowables for fibrous composites 104
 Use of polymers in chemical plant construction 14

Conference Reports

37th Annual Conference of the SPI Reinforced Plastics/Composites Institute 340
 International Symposium; energy and composite materials . . . 15
 Processing and Applications of Carbon-fibre Reinforced Plastics 17

Research Reports

High current DC arc ignition testing of GRP
 T. Watanabe, M. Sato and H. Kuwajima 24
 A simple strand test for routine fibre strength and modulus evaluation
 H. Morley 21

Titles

Titles are listed alphabetically, ignoring definite and indefinite articles

- Adhesive bonding of GRP
M.R. Bowditch and K.J. Stannard 298
- Analysis of a crimped and bonded joint for load bearing skeletal members
A. Pickett, L. Holloway and L.N. Phillips 257
- Assessment of chopped strand mat GRP lamination for the construction of damage resistant ship hull structures
A.K. Green, D.P. Bashford and W.H. Bowyer 401
- The bolt bearing strength of glass/carbon hybrid composites
F.L. Matthews, A.A. Roshan and L.N. Phillips 225
- Bolted assembly of engineering components press moulded from sheet moulding compound
F.E. Devine and J. Humphreys 311
- Bursting and bulging of carbon fibre composite discs
C.D. Austin, W. Johnson and B.J. Walters 383
- Crimp bonded end fittings for use on pultruded composite sections
A.K. Green and L.N. Phillips 219
- Design of the composite spar-wing skin joint
R.D. Cope and R.B. Pipes ... 47
- Developing a materials system for use in making orthopaedic calipers
N.L. Hancox 202
- Developing asbestos-free calcium silicate building boards
S. Harper 123
- Developments in the assessment and performance of GRC over 10 years
B.A. Proctor, D.R. Oakley and K.L. Litherland 173
- The effect of glue-line voids and inclusions on the fatigue strength of bonded joints in composites
G.N. Sage and W.P. Tiu 228
- Effect of resin flexibility on the properties of filament wound tubes
M.J. Legg and D. Hull 369
- The electrical properties of joints in carbon fibre composites
K.J. Lodge 305
- Fasteners for composite structures
R.T. Cole, E.J. Bateh and J. Potter 233
- Flexural characteristics of steel fibre and polyethylene fibre hybrid-reinforced concrete
K. Kobayashi and R. Cho ... 164
- Fracture behaviour of sheet moulding compounds
Part 1. Under tensile load
T. Watanabe and M. Yasuda . 54
- Fracture behaviour of sheet moulding compounds
Part 2. Influence of constituents on mechanical properties
T. Watanabe and M. Yasuda . 59
- Future developments in fibre-reinforced cement, mortar and concrete
R.A. Wells 169
- Micromechanical aspects of the fibre-cement bond
V. Laws 145
- Microstructural features of interfaces in fibre cement composites
C.L. Page 140
- Moisture problems in advanced composite structural repair
S.H. Myhre, J.D. Labor and S.C. Aker 289
- On the bearing strengths of CFRP laminates
T.A. Collings 241
- Opto-acoustic detection of thermally induced micro-cracking in Al/CFRP joints
E.G. Wolff, W.H. Dittich, R.C. Savedra and C. Sve ... 323
- Osmosis in composite materials
E. Walter and K.H.G. Ashbee 365
- Photoelastic investigation of bolted joints in composites
R. Prabhakaran 253
- The replacement of asbestos cement by GRC
J.W. Smith 161
- A review of the strength of joints in fibre-reinforced plastics. Part 2. Adhesively bonded joints
F.L. Matthews, P.F. Kilty and E.W. Godwin 29
- Short-term in-plane stiffness and strength properties of CSM-reinforced polyester laminates
D.C. Barton and P.D. Soden . 66
- Single- and multiple-bolted joints in orthotropic materials
R.E. Rowlands, M.U. Rahman, T.L. Wilkinson and Y.I. Chiang 273
- Spin tests on medium energy density flywheels
G. Genta 38
- Steel-fibre reinforced concrete — present and future in engineering construction
C.D. Johnston 113
- Stiffness and strength of asymmetric glass reinforced polyester laminates
D.C. Barton and P.D. Soden . 180
- Strain-rate effects in fibre-reinforced concrete subjected to impact and impulsive loading
W. Suaris and S.P. Shah 153
- Strength of multi-bolt joints in GRP
E.W. Godwin, F.L. Matthews and P.F. Kilty 268
- Stress distribution around a single bolt in fibre-reinforced plastic
F.L. Matthews, C.M. Wong and S. Chrysafitis 316
- Structural modelling of plain and fibre-reinforced concrete. A morphological approach to a cracked region
P. Stroeven 129
- Surface pretreatment of carbon fibre-reinforced composites for adhesive bonding
B.M. Parker and R.M. Waghorne 280
- Toughness of cement composites containing polypropylene films compared with other fibre cements
A.P. Hibbert and D.J. Hannant 393
- Toughness of fibre cement composites
A.P. Hibbert and D.J. Hannant 105
- The viscoelastic constitutive modelling of adhesives
H.F. Brinson 377
- Water sorption and mechanical properties of a glass-reinforced polyester resin
A. Apicella, C. Migliaresi, L. Nicodemo, L. Nicolais, I. Iaccarino and S. Roccotelli . 406
